# Cost Efficient Push-Button Serial Control

The Audio Authority® 1818 Serial Switch Controller provides a flexible way to control a compatible media player using push-buttons. Each 1818 connects up to 6 push-buttons and may be expanded to 96 positions. Use push-buttons as transport controls, or to play specific tracks. Create a larger demonstration system by connecting multiple 1818s using the RS-232 bus architecture.
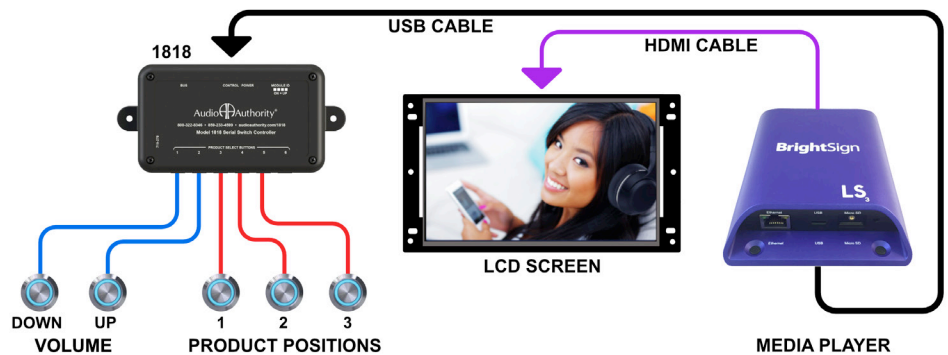

Features

- Play specific tracks, pause, mute, volume up and volume down
