

Score Big with HLX!

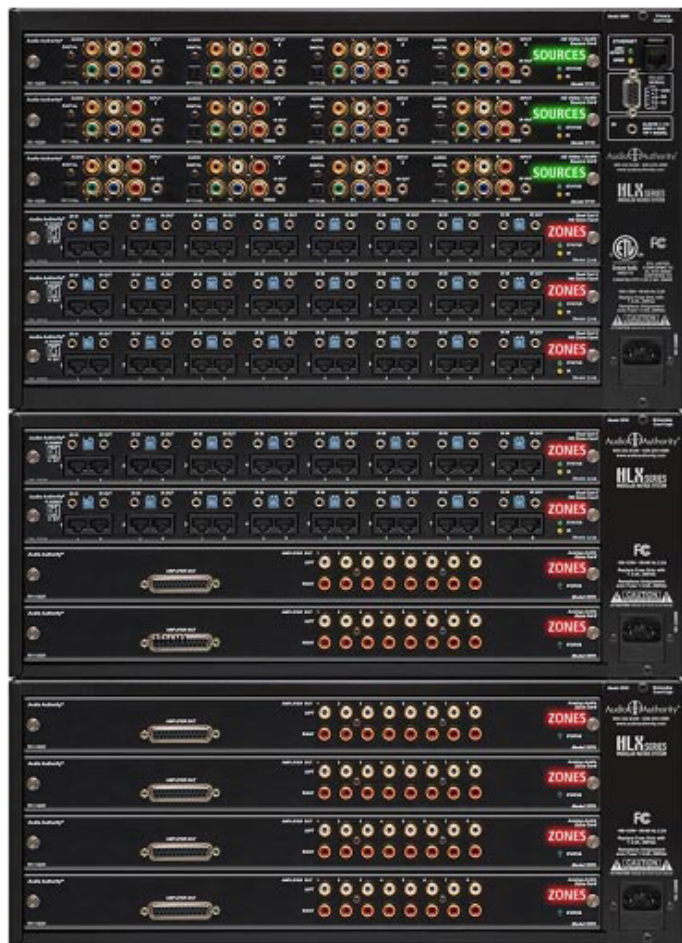

The HLX Modular Matrix System is ideal for large audio and video matrix systems required for sports bars, restaurants, and night clubs. The large numbers of simultaneous sources, long distance video runs, and flexible audio requirements are challenges for which the HLX was tailor made.

Control4™

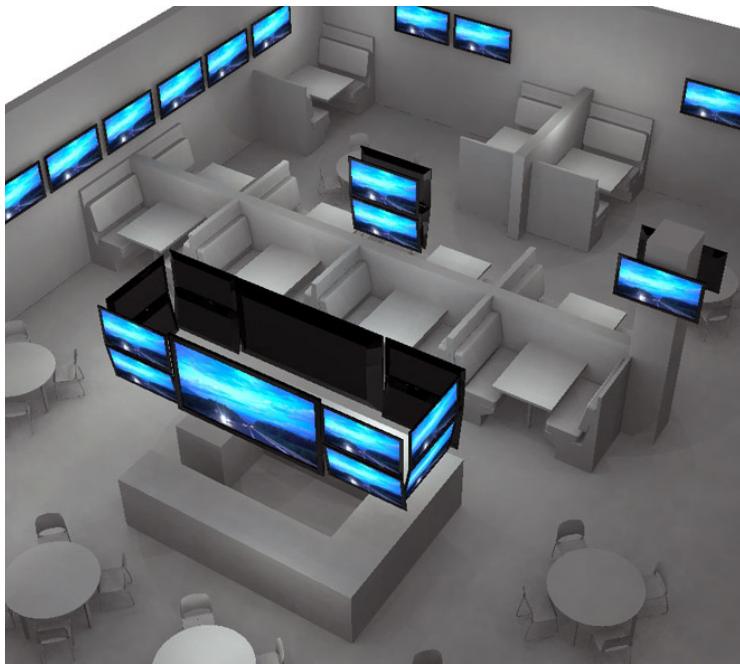

NEW UPPER LIMITS

A new maximum configuration is illustrated below. 12 video sources with audio fill the first three card slots. 40 video outputs via Cat 5, and 48 stereo audio outputs round out this system.

[Try the HLX Configurator](#)

HLX Sports Bar Application

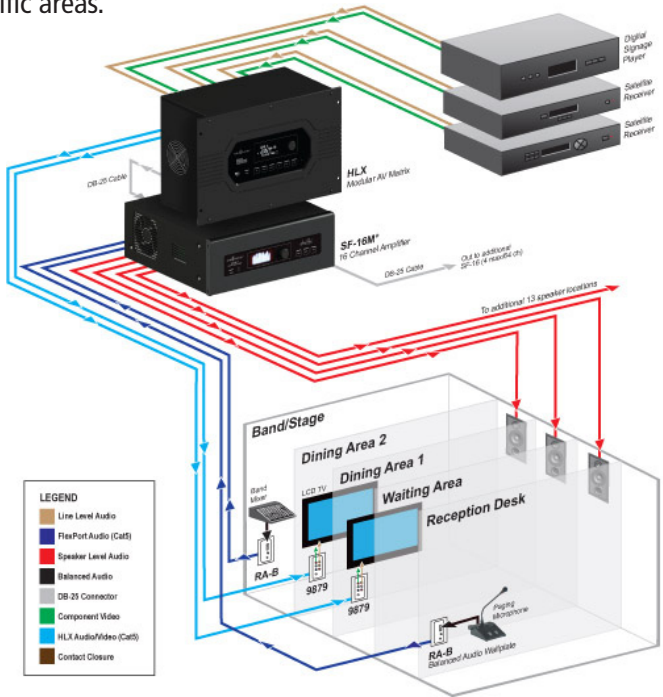

Video Sources - Run up to 12 video sources simultaneously, covering multiple games and other events.

Video Displays - Our proven Cat 5 zone technology delivers stunning HD content up to 1,000 feet from the sources. Choose from single-gang Decora, dual-gang stainless, or enclosed box receivers.

Audio Flexibility - Put audio wherever you need it, and adjust the volume of each output individually, or use group volume commands. Bass/Treble or 10-band EQ available for each output.

Coming Soon: SonaFlex™

The [SonaFlex SF-16M](#) is ideal for applications like this sports bar. Working hand in hand with the HLX, multiple video and audio sources are available to play in dozens of audio zones. Paging microphones and audio mixers can easily override audio in specific areas.
