

1714 Headphone Demonstrator

Headphone Demo with Individual Volume Controls

Each headphone on display has its own volume control with the Audio Authority® 1714 demo controller. Push buttons or a volume knob are available. Using the knob, customers can turn the knob to adjust volume, and press to mute. This demonstrator is ideal when combined with our Model 1703 lossless audio player.

Features:

- High quality headphone amplification
- Volume control knobs or up and down buttons
- Demo four headphones (expands to 8, 12 or more)
- All headphone positions may be active at one time
- Timeout feature mutes each output after demo (adjustable from 15 seconds to 2 minutes)
