

1800 Soundbar Demonstrator

Soundbar Demonstrator with Lighting Sync

The Audio Authority® 1800 Soundbar Demonstrator combines soundbar switching, volume control, and lighting into one compact system. The 1800 can be controlled via TouchSelect panels, pushbuttons, or a custom touchscreen application. The 1800 accepts digital 2-channel PCM audio via optical connection, and switches the audio signals to each soundbar's optical inputs.

Example System:

Each button press triggers three actions simultaneously: a specific video track begins to play, audio plays through the soundbar, and the shelf it sits on lights up.

Specifications

- Dimensions (HxWxD, inches): 3.56 x 5.97 x 1.25
- RS-232 Communication: 9600 Baud rate
