

1816

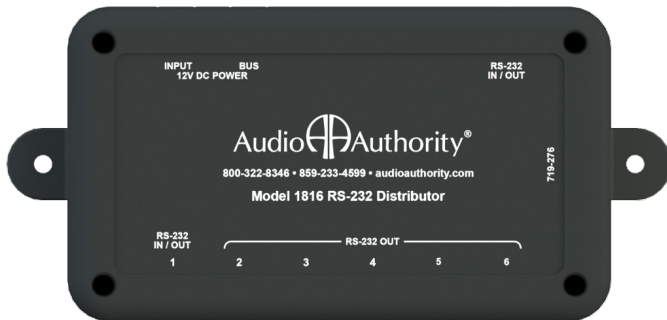

Serial Distributor

Send Serial Commands to Multiple Devices

The Audio Authority® Model 1816 RS-232 Distributor is a transmitting array that broadcasts RS-232 serial commands. Each 1816 sends serial commands to up to six serial devices, and can receive feedback from one device.

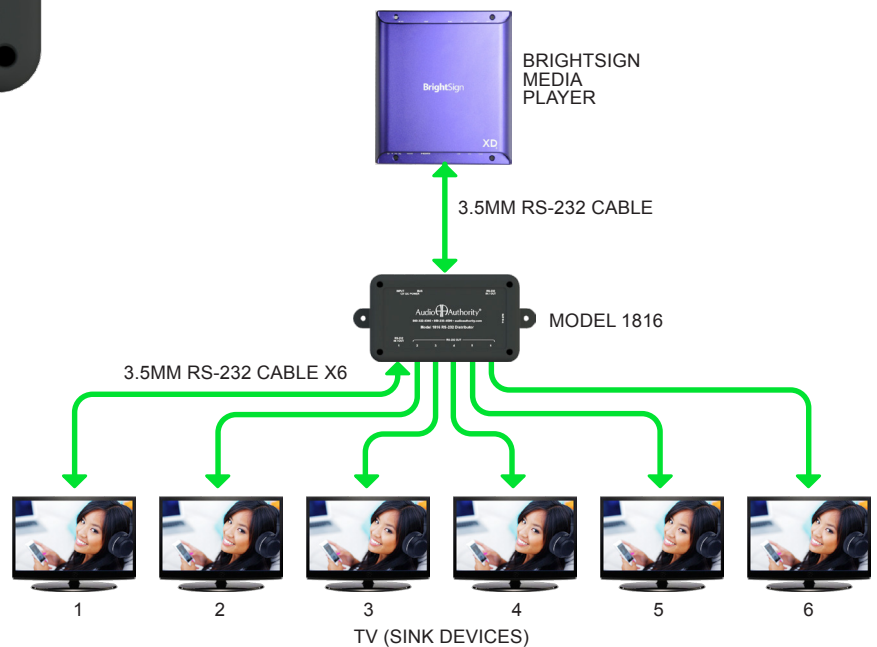

Features:

- Broadcast serial commands from a controller to multiple devices
- Receive feedback from a connected sink device (Output 1) and pass data back to the source

1816 Example System:

A BrightSign® media player sends serial commands to TVs, receiving feedback from position 1.
