## Push-Button to GPIO Adapter

# Interface Push-Buttons with BrightSign® Players

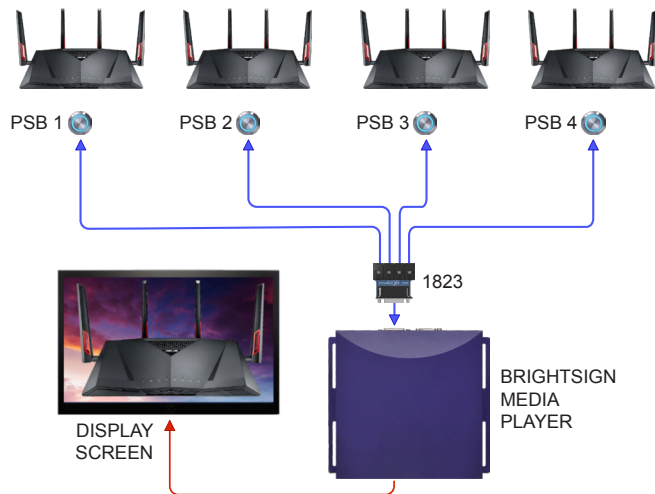

The Model 1822 allows four modular push-buttons to interface directly with BrightSign Legacy 4K DB-15 GPIO ports. Using BrightAuthor, each button may be assigned one or more custom functions.

### Features:

- Adapt DB-15 GPIO ports to push-buttons
- Control BrightSign media player
- Cost-efficient 4-position interface

### Example System:

A button press allows a custom video track to play when each product is selected.

BRIGHTSIGN 4K 1024
