

# 903i Comparator

## Access Touch Control

*Perfect for car audio rooms or home theater systems utilizing an AccessEz™ Demonstration Network.*

### Features:

- Control multiple product groups
- Up to 99 products in a single group
- 10" touchscreen connects to any Access system
- Compare Systems Mode for side by side A/B comparison
- PIN protection for setup features
- Lock feature disables the comparator, unlock with PIN

The Model 903i Comparator is a touchscreen interface that controls the Access™ Demonstration Network providing an easy way to select products and compare systems. The 903i can switch products in multiple groups (with the appropriate number of switching modules), deselect products, and perform A/B comparisons.

### 903i Example System:

Atmos Home Theater Demo System
