

Single Product Group Control Panel

Perfect for in-wall speaker displays, soundbars, car audio subwoofer rooms, or home theater speaker packages utilizing ACCESS™ demonstration systems.

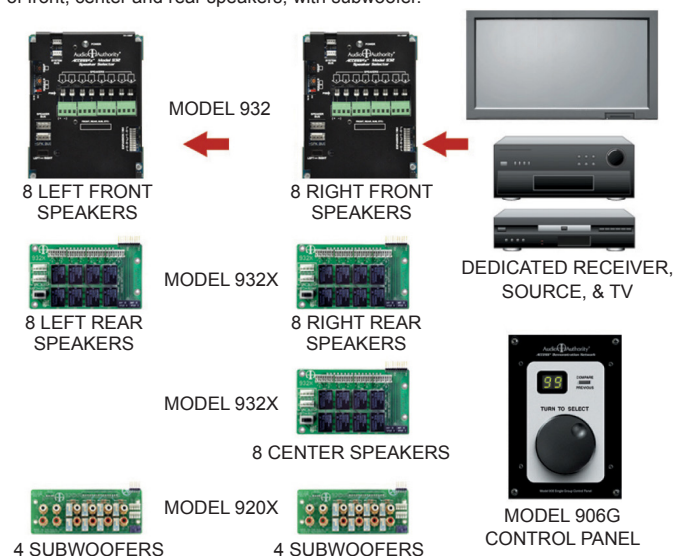

The Model 906G control panel is designed to control a single product group in an Audio Authority® AccessEZ™ audio and video demonstration system. The 906G can switch up to 99 products in a group (with the appropriate number of switching modules), deselect products, and perform A/B comparisons. The 906G makes it simple to control any single group by turning the knob to select the desired products.

Features:

- Flexible installation options
- Control up to 99 products in a single group
- A/B comparison ability
- Simple setup and integration
- Master/slave mode for expanded system configuration
- Multiple 906G control panels can be used for controlling more than one group in a system
- Proudly made in our U.S. factory

Example System:

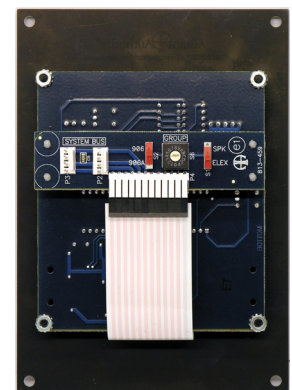

This example system could switch up to eight speaker packages, each consisting of front, center and rear speakers, with subwoofer.
