

911B

Head Unit Switching Module

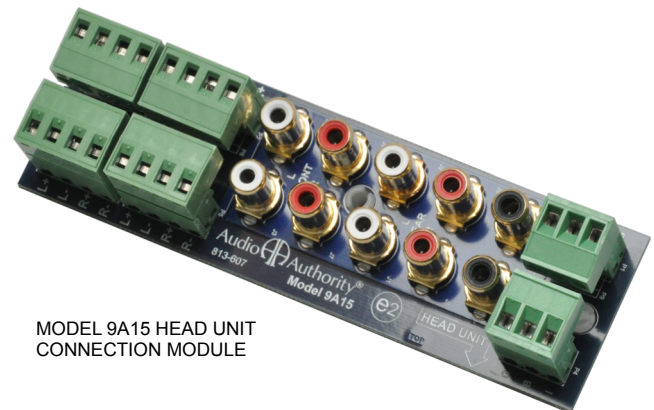

Mobile Audio Head Unit Switching Module

Connect Head Units with any output configuration to this all-in-one, high-performance ACCESSeZ™ switching module.

The Audio Authority® Model 911B switches low-level and high-level audio as well as DC power, and features an expander port for adding additional audio or video channels.

Plan Ahead for Maintenance

Head units may be connected directly to 911B modules, but in many cases using a Head Unit Connection Module makes installation, and future product rotation, much more convenient. Models 9A10 and 9A15 are available for this purpose.

MODEL 9A15 HEAD UNIT CONNECTION MODULE
