

Kit 1591 Video Adapter Bracket

The 1591 Kit adapts the new 1501A and 1502A video heads to the original Model 1500 audio intercom Counter Station.

Installation

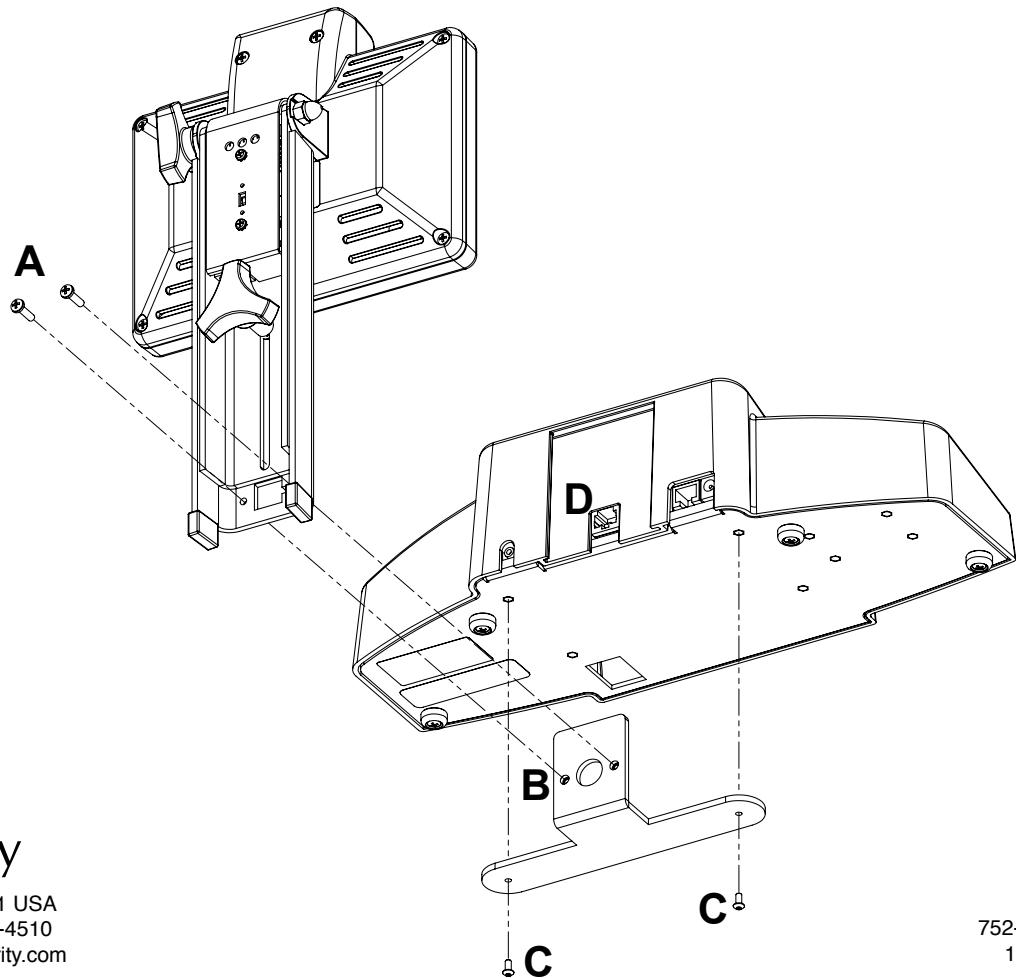

Disconnect the Counter Station from power and other connections.

Using the screws provided with the video head (A), attach the 1501A or 1502A to the enclosed 701-1310 bracket (B) then using the screws provided with the bracket, attach it to the Model 1500 Counter Station (C).

Insert the modular plug from the video head into the Counter Station video port (D).

Connect power and other cables to the Counter Station and test video functionality.

Note: Model 1509 hubs do not support video.
